MCC offers credit courses in 15-, 12- and 8-week formats to insure students have maximum flexibility when planning a course of study. The courses may be held days, nights, weekends or online. When registering for classes online, please note the start and end dates as indicators of whether or not it is an accelerated class.

**Traditional Semester: 15-Week Credit Classes**

Fifteen-week (traditional semester) courses are considered General Fund courses, and follow the General Fund tuition, fees and refund policies. Please note that accelerated courses have a different price structure and refund policy.

Accelerated Courses: 12- and 8-Week Credit Classes  

Accelerated Classes

Accelerated classes allow students to take courses in a short, concentrated timeframe on weekdays, weekends or online. Classes begin at five different times throughout the year. These classes run for 8 or 12 weeks instead of the normal fifteen-week timeframe. While the number of classes for each session is fewer than those in the regular fall and spring semesters, students should be aware that each course contains the same number of class hours as the 15-week semester. As a result, the level of study is much more intensive and demanding of time. Students should consider this in planning their time and course selection. Twelve- and eight-week accelerated courses are considered credit extension courses, and follow the credit extension tuition, fees and refund policies.

Accelerated Certificate Programs

MCC offers three different one-year credit certificate programs that you can complete during accelerated sessions: Computer-Aided Design (CAD), Fitness Specialist and Web Technology. For more information, visit the college website at www.manchestercc.edu.

Drug & Alcohol Recovery Counselor

MCC offers a series of Drug and Alcohol Recovery Counselor courses in an accelerated 8-week format. These courses may be used towards completion of the Drug and Alcohol Recovery Counselor associate degree but are also of special interest to professionals practicing in the addictions or counseling fields. These courses are approved by the Connecticut Certification Board towards eventual certification and by the Connecticut Department of Public Health for eventual licensing.
