Fact versus Fiction: What Diet is Right for You?

If you’re totally confused by the mountains of information, pro and con, about the Atkins and South Beach diets and others, maybe it’s time you got some straight information. This informative class, taught by a naturopathic physician, will allow you to do just that. Learn what a healthy diet is and whether the diets popular in today’s culture fit the bill. Learn what carbohydrates are really all about and whether any can be termed “good carbs.” Find out if too much protein is dangerous to your health; how much fiber your diet should include; and what fats are needed for a healthy life. Once you separate fact from fiction, you’ll be well on your way to a healthier lifestyle.

**CRN #11692** 1 Thursday, 4/13, 7-9 p.m.  
MCC Bldg. LRC B144  
Fee: $19  
Instructor: **Dr. Marie Mammone** is a naturopathic physician who practices in Wethersfield. She has been involved with family nutrition for more than 20 years.

Intermediate Drawing

Ready for the next step? Searching for your own “art voice”? Willing to experiment? Each class will include discussion, demonstration, exercises and hands-on drawing. You will be introduced to and experiment with charcoal, conte crayon, felt marker, ink, and the mixing of mediums on various papers and illustration board. Students will draw from setups or may opt to focus on a special interest. During each class there will be supportive discussion and critique. Come and enjoy the camaraderie of sharing with fellow artists. If time permits, students will draw from a live model (an additional fee of approximately $5 will then be collected from each student). Materials fee $30. Students should bring drawing board to class.

**CRN #11665** 8 Tuesdays, 3/28-5/16, 9-11:30 a.m.

Weekend Watercolor Workshop

This workshop, designed for students with some background in watercolor (transparent or opaque styles), will help you “color your world” through enhancing your technical skills, improving your use of color, and developing your compositions. Interested students will be able to choose from suggested assignments. Participants may also bring previous drawings and paintings to discuss and use to develop new works. There will be still-life arrangements in class as well. Please bring your own supplies, or call Continuing Education at (860) 512-2800 for a supply list.

**CRN #11675** 2 sessions, Saturday & Sunday, 3/4-3/5, 9:30 a.m.-4 p.m.  
EHCCC Room 5  
Fee: $90  
Instructor: **Estelle Laschever**
Block Printing
Learn linoleum and wood block printing in this friendly seminar for the novice. You will be able to choose your own subject matter and projects. Maybe you wish to create pieces of artwork or would like to try printing cards (for any occasion), posters, or personalized stationery. Through hands-on experience of printing both black-and-white and 2-3 color prints, you will learn the process from start to finished product. We will start with the linoleum block print, which you may decide to stay with throughout the course, or switch to wood block printing. By the end of the workshop, participants will possess the know-how to continue printing on their own at home. Depending on the type, size and number of selected projects, expenses for supplies and materials could be $50-$60 and up. A materials list will be handed out and discussed during the first class.

CRN #11676 8 Wednesdays, 3/22-5/10, 6-9 p.m. MCC Bldg. AST D124
Fee: $150
Instructor: Christine LaFond

Introduction to Calligraphy
You don’t have to be an artist to enjoy the art of “beautiful writing.” You will be introduced to three calligraphic type styles—Chancery Italic, Gothic, and Uncial. Add a flourish by lettering your scrapbooks, family trees, invitations, place cards, and greeting cards. Create an art piece of your favorite sayings or verses. Students may choose to work on a personal project during the last two classes. No tests or exams! Just come, relax, and have some fun while learning calligraphy. Materials fee: $5 payable to instructor for pen and paper. Other optional supplies will be discussed in class.

CRN #11674 8 Thursdays, 3/23-5/11, 10 a.m.-noon
MCC Bldg. AST D109 Fee: $99
Instructor: Christine LaFond

Chinese Brush Painting
You will be introduced to the fundamentals of this ancient art form, using ink on rice paper to express and depict traditional flowers and birds. Develop your imagination, drawing and design skills, and expand your knowledge of Asian art. Learn from demonstration and practice under the gentle, patient and talented eye of your instructor, a graduate of the Central Academy of Fine Arts in Beijing. Materials fee: $15, payable to instructor at beginning of class for rice paper, bamboo brush and ink. Please bring your lunch.

CRN #11726 1 Saturday, 3/11, 9 a.m.-3:30 p.m. EHCCC Room 5
Fee: $60
Instructor: Yuemei Zhang is a winner of many awards for both her painting and printmaking, and is an experienced teacher in both her native China and the U.S.
Arts & Crafts

See the World on the Right Side of the Brain
Did you know that practically anyone can make beautiful, realistic drawings? It may surprise you, but drawing is a learnable, teachable skill similar to driving a car or threading a needle. The secret is in teaching your brain to process visual information differently. If you always wanted to draw but were not sure that you had enough talent, then this class is for you. Learn to make a magic, eye-opening shift to the right side of your brain—your creative side—and start seeing the way artists do. Expect serious and fun exercises, experiments, and discoveries. Watch your skills grow in a relaxed, friendly atmosphere. Students should bring a drawing pad (9” x 12” or larger), 2H pencil, 4B pencil, kneaded eraser, and 12” ruler to class. Materials fee: $4, payable to instructor at first class for additional materials.

CRN #11685 8 Mondays, 2/13-4/10 (does not meet 2/20), 7-9 p.m.  
MCC Bldg, AST D110 Fee: $140  
Instructor: Natalia Piendel is a local artist and member of the Manchester Art Association (MAA). She has exhibited and sold her art locally and has become known for her expressive portraits. Since joining MAA in November 2000, she has won more than 20 awards. She has also taught art to adults and children, and teaches ESL classes at MCC.

Drawing with Pastels
Have you ever aspired to draw people, buildings or landscapes with accuracy and style? Using the diversified medium of pastels, we will master the technique of combining lines and blended areas to produce a work of art. Students will study anatomy, perspective, basic drawing skills, color theory and composition. Bring a sketchbook and writing tools to each class. Prerequisite: At least an intermediate level of art skills.

CRN #11758 6 Wednesdays, 3/15-4/19, 6-8:30 p.m.  
MCC Bldg, AST D105 Fee: $95  
Instructor: Jennifer Blume earned a B.F.A. from Pratt Institute of Arts & Sciences in New York, with a dual major of illustration and photography. She has been professionally illustrating for companies, books, and magazines, including Gourmet and Fine Gardening, for the past 9 years, and has exhibited her work in the Hawk Gallery of Glastonbury and the Cooley Gallery of Old Lyme, among others.

The Art of Flowers
Let your inner artist bloom! In this course, participants will apply a variety of media to the subject of flowers, including pen and ink, watercolor, colored pencil and pastels. Explore the versatility of each medium through color, form and composition. Bring a sketchbook and pencil to first class; supplies will be discussed at that time. Beginners to intermediates are welcome.

CRN #11774 4 Saturdays, 4/14-4/29 (does not meet 4/15), 9:30 a.m.-12:30 p.m.  
EHCCC Room 5 Fee: $90  
Instructor: Jacqueline Peterson

Illustration Basics
For those interested in turning their creative ideas into print, this course is for you. You will learn about various markets for artwork through fun assignments that you will work on at home and in class. Each session will cover a different market, and your creative output will be discussed during weekly classroom critiques. Assignments will include illustrating a CD cover, a poem for a magazine, and an advertisement for a product of your choice. The role of computers in the artist’s life will also be discussed. In addition, you will receive tips on creating a portfolio and how to get your art published. Please bring samples of your artwork to the first class, along with illustration examples that you admire. You also need to bring a portable sketchbook with drawing and writing tools to each class. Prerequisite: At least an intermediate level of art skills.

CRN #11759 5 Thursdays, 3/9-4/6, 7-9 p.m.  
EHCCC Room 5 Fee: $75  
Instructor: Jacqueline Peterson is a University of Hartford graduate who exhibits her work and teaches in the Hartford area.

Jewelry Design and Metalsmithing
Sawing, filing, piercing, riveting, soldering, and fusing. Sound like fun? Now apply those tasks to jewelry making and metalworking. Still sound like fun? If your answer is yes, this course is for you. The instructor, an experienced jewelry maker, metalsmith and teacher, will guide students through hands-on lessons in the essentials of jewelry making and working with metals. Participants will learn to saw, file, pierce, rivet, fuse and solder silver and copper into earrings, rings, pins, pendants or other small sculptural objects. No previous experience is required. 
Materials fee: $10-$20 (depending on class size), payable to instructor at first class for sandpaper, solder, drill bits and metal class. A list of necessary tools (approximate cost: $50-$75) will be mailed prior to class start. Please bring a sketch pad, pencil and an extra fine Sharpie marker to class. Tap your inner creativity with a master artist, find a calling or just have some fun. Participants must be at least 14 years of age.

CRN #11684 4 Thursdays, 3/9-3/30, 6:30-9:30 p.m.
MCC Bldg. AST D132 Fee: $130
Instructor: Carla Polek has an M.F.A. in jewelry design and metal smithing from Southern Illinois University and a B.A. in applied design from San Diego State University. She teaches metal smithing at Holyoke Community College and is widely exhibited.

Jewelry Design and Metalsmithing: Part II
Do you need more time to finish that piece from the beginner’s course? Do you have an idea of your own that you would like to pursue? Or would you like to hone a technique that was previously learned in the earlier course? This class is designed for students who would like to continue their creative explorations in jewelry making. Students should come to the first class with ideas and ready to work. Please bring your toolbox and materials from the introductory class. If you have any questions about tools and materials, you can contact the instructor at (860) 512-2800. Participants must be at least 14 years of age. Prerequisite: Jewelry Design and Metal Smithing.

CRN #11761 4 Saturdays, 4/8-5/6 (does not meet 4/15), 9 a.m.-noon
MCC Bldg. AST D132 Fee: $130
Instructor: Carla Polek

Jewelry Making Studio Workshop
This four-hour class will provide the structure that you need to work on a silver and/or copper project of your choosing. Students must have experience in jewelry making, come prepared to work, and bring along ideas, designs and materials. Instructor will provide support as needed.
Prerequisite: Jewelry Design and Metal Smithing.

CRN #11470 1 Saturday, 5/20, 9 a.m.-1 p.m. MCC Bldg. AST D132 Fee: $49
Instructor: Carla Polek

Precious Metal Clay I: Creating Silver Jewelry
Craft fine silver jewelry as though you are playing with clay. Create at your own pace with this exciting new material that combines the pliability of clay with the elegance and permanence of precious metal. No prior artistic experience is required. Experiment with forming jewelry objects by rolling, cutting, molding and stamping precious metal clay (PMC). Simple stone setting in PMC will be taught. Based on design size and individual pace, participants may expect to complete two or three pieces—pendants, earrings, simple beads and charms. Materials fee: $60, payable to instructor at beginning of class, for one package of PMC+. Materials fee: $50-$75, will be mailed prior to class start. Please bring a sketch pad, pencil and an extra fine Sharpie marker to class. You will be exposed to many new ideas; feel free to pursue the ones that appeal most to you. Based on design size and individual pace, participants may expect to complete at least two pieces. Materials fee: $60, payable to instructor at beginning of class for one package of PMC+: use of the kiln; forming, texturing, molding and stamping tools; finishing and polishing materials; and appropriate findings. Additional clay and gemstones will be available for purchase. Materials list will be sent prior to class start. Prerequisite: Precious Metal Clay I: Creating Silver Jewelry or permission of instructor. Please bring your lunch to class.

CRN #11680 1 Saturday, 3/25, 9:30 a.m.-6 p.m. EHCCC Room 5 Fee: $70
Instructor: Judith E. Goldstein

Silver Jewelry with a Twist: Create a Sterling Chain Bracelet
Learn a new skill and create your own silver bracelet in one evening! No special jewelry skills are necessary for this class. The instructor will demonstrate how to assemble ready-made sterling “jump” rings into a variety of chain patterns from simple to intermediate. After constructing a few samples as a permanent reference, you will proceed to a design of your own choosing. Based on complexity and timing, students may have the option of creating more than one piece, or expanding projects into a necklace or adding a pair of matching earrings. Students may also learn how to give their piece that “antique” look if desired. Materials fee: $38 for sample and silver supplies, payable to instructor at class. Note: Materials fee may vary, as it is dependent on the metals market at the time of class and the amount of silver necessitated by individual designs. Materials list to be mailed prior to class start.

CRN #11682 1 Thursday, 5/4, 6-9:30 p.m. EHCCC Room 5 Fee: $30
Instructor: Judith E. Goldstein

**Knitting for All Seasons**

Knitting doesn’t take an extended holiday when the snow melts! Spring is a perfect time to knit. Enhance your spring or summer wardrobe with a knitted shawl, sleeveless top, purse, or dress. Knitted bathing suits, anyone? Knitting is perennial, whatever the season. Regardless of your skill level, join us to work on your own special project, from patterns brought from home or borrowed from the instructor. Beginners will learn to cast on, knit, purl, read a pattern and start a project. More experienced knitters will learn some advanced techniques, such as bobbles, cables, fisherman and duplicate stitch. Bring needles (size 8 or 9) and a skein of 4-ply yarn to first class.

**CRN #11679** 4 Saturdays, 2/4-3/4 (does not meet 2/18), 10 a.m.-noon  **MCC Bldg. LRC A201**  Fee: $70

**Instructor:** Phyllis Girard has been knitting for more than 50 years. She enjoys sharing her love of knitting by teaching this craft in a variety of settings for students of all levels.

**The Titanic Quilt**

There is so much mystery that surrounds the Titanic luxury liner. This traditional block’s design was copied as a pattern from the first-class ballroom floor in the movie, “Titanic.” The construction of the block will be using “smart piecing” as developed by Kaye England. The cutting process will use special rulers, and piecing will be done on a sewing machine. You will learn how to make the block, and assemble and finish the quilt. A more skilled quilter may start a large quilt, whereas a beginner can expect to finish a small quilt or table runner. Most of the sewing will need to be done at home on your own machine; some of the block cutting will be done in class. The supply list of necessary materials will be given out at the first class. Materials fee: $14 for special ruler, in addition to cutting supplies and cost of fabric, which will depend on the size of student’s project.

**CRN #11760** 4 Saturdays, 3/4-3/25, 9 a.m.-noon  **MCC Bldg. AST D229**  Fee: $75

**Instructor:** Carolyn Johnson is the author of the quilting book, **Taking Off with Flying Geese.** She has been quilting for more than 35 years and has taught nationally for more than 20 years.

**Chair Caning: Seat Weaving Workshop**

Reweave the seat of your favorite chair using cane, fiber rush or reed split. This course is designed for individuals interested in professional and traditional seat-weaving techniques (including secrets of the trade). It is a demonstration and hands-on course with personal attention. Most chairs can be completed during the class duration. However, difficult or unusual chairs may need a repeat course. All materials, except your special chair, can be purchased from the instructor for $10 to $40. Bring your lunch on Saturday.

**CRN #11683** 3 sessions: 1 Friday, 4/28, 6:30-10 p.m.; 1 Saturday, 4/29, 9 a.m.-5 p.m.; & 1 Sunday, 4/30, 12:30-5 p.m.  **MCC Bldg. V1 V101**  Fee: $99

**Instructor:** Janice Bennett, a third-generation chair caner, has conducted public demonstrations and classes for more than 20 years.

**Flower Arranging**

The art of flower arranging adds beauty to the home, serves as a meditative craft, and brings joy to others. Learn the techniques and mechanics of fresh flower arranging. Create styles and designs of artistic expression using fresh flowers and related materials. A different flower design will be introduced each week, with the last week reserved for freeform or a combination of designs. This hands-on workshop is for both the novice who simply loves flowers and for the intermediate with some flower arranging experience. Materials fee: $15 per session, or students may bring their own flowers. If you are bringing your own supplies, please call Continuing Education at (860) 512-2800 for a materials list.

**CRN #11728** 7 Mondays, 2/27-4/10, 7-9 p.m.  **MCC Bldg. LRC B125**  Fee: $90

**Instructor:** Robert Buettner has been a florist since 1966, and owns and operates Paul Buettner Florist in East Hartford. He taught flower arranging at MCC during the 1990’s.

EXPLORING CONNECTICUT’S PAST THROUGH ITS FURNITURE

**Introduction to Printmaking: Monotypes**
Explore the use of color and design in developing monotypes—one-of-a-kind prints that offer many exciting opportunities in the world of printmaking. This three-week course will introduce participants to the basic terminology and techniques of printmaking and allow them to produce many monotypes using a variety of techniques, such as layering color in transparent washes, stenciling, and the use of plant forms. Through the development of individual prints, participants will learn to use the etching press—a press that is at the heart of every print shop and whose function has not changed much since the beginning of the 15th century. Students will also be guided through the exciting stages of developing a hand-pulled print, and by the final class, each student will have a number of signed prints ready for matting and framing. No previous printmaking experience is required and all levels are welcome! Materials fee: $25 includes printing plates, inks, additives, and two sheets of large printmaking paper. Additional paper will be available for purchase.

CRN #11729 3 Wednesdays, 3/1-3/15, 6-9 p.m.
MCC Bldg. AST D110 Fee: $60

Instructor: Trudy M. Mitchell maintains a printmaking studio in Bolton, and exhibits her work in the semi-annual Northeastern Connecticut Open Studio tour. She is an experienced teacher in both printmaking and secondary English.

**Introduction to Printmaking: Etching and Aquatint**
Venture into the world of 15th-century printmaking to explore the techniques of etching and aquatint, processes by which lines may be etched into a plate or shaded into various intensities of tone. Throughout this three-evening workshop, participants will learn the history of intaglio printing, in which images are etched into either zinc or copper plates using an etching solution—a 15th-century Italian technique first used to produce-imagery for book publication. Students will ink their plates and print them on hand-made printmaking paper. Students will also be guided through the exciting stages of developing a hand-pulled print, and by the final class, each student will have a number of signed prints ready for matting and framing. No previous printmaking experience is required and all levels are welcome! Materials fee: $25 includes printing plates, inks, additives, and two sheets of large printmaking paper. Additional paper will be available for purchase.

CRN #11730 3 Wednesdays, 3/22-4/5, 6-9 p.m.
MCC Bldg. AST D110 Fee: $60

**Framed: Making Your Own Grain-Painted Picture Frame**
Do you have a drawer of unframed artwork waiting for a frame or a wall crying out for a fancy painted mirror? If so, come join us for this instructive and productive class designed for the interested but inexperienced woodworker. You will be provided with three eight-foot lengths of 19th-century styled picture frame molding and an historical background to this era’s frame designs and painting techniques to build and decorate your own customized picture or mirror frames. You will also learn painting and graining techniques that turn plain pine into mahogany, rosewood, or a swirl of putty grained fans and rosettes. As you create your frames, you will learn about how 19th-century Connecticut manufacturers like Lambert Hitchcock used local materials and paint to create marketable items that were sold around the world. The number and sizes of the frames you produce is up to you, given the materials available. Materials fee: $30, payable to instructor at first class, to cover the cost of wood and painting supplies.

CRN #11690 3 Thursdays, 3/16-3/30, 6-9 p.m. MCC Bldg. AST D124 Fee: $90

Instructor: John Baron has been a restoration cabinetmaker and carpenter for more than 30 years. He has worked at the Noah Webster Foundation and the Webb-Deane Stevens Museum. He has also recently been the Craftsman-in-Residence at Old Sturbridge Village, demonstrating furniture making and historic painting techniques.

**Taxes, Tea, and Tea Tables: Make Your Own Chippendale Tea Table**
Taxes and teas were intertwined in Revolutionary War politics, as was the custom of taking tea in the late afternoon. Today’s lifestyle hardly allows for such a luxury, but if you don’t have time to serve tea to your friends, you can use the table that you’ll make in this class for a coffee table, end table, or computer table. You will explore mortise-and-tenon joinery secured with a peg and 18th-century finishing techniques to create your own reproduction Chippendale tea table. You will also explore the 18th-century furniture collections at the Wadsworth Athenaeum and learn how Connecticut’s society changed in a more genteel direction during the years preceding the Revolutionary War. This class is designed for the interested but inexperienced woodworker. Materials fee: $65, payable to instructor at first class, to cover the cost of wood and painting supplies.

CRN #11762 3 Thursdays, 4/6-4/27 (does not meet 4/20), 6-9:30 p.m. (first class on 4/6 meets 6-8 p.m.) MCC Bldg. AST D124 Fee: $90

Instructor: John Baron

**From Puritan to Yankee: Make Your Own 17th-Century Bible Box**
Bible boxes were the forerunners of today’s PC’s—they stored printed information, provided writing surfaces, and were used to keep documents relating to a family’s personal accounts. During the 17th and early 18th centuries, distinctive forms of designs arose for these boxes in the towns up and down the Connecticut River Valley. Today, these small table boxes can function as storage for CD’s, DVD’s, or function as a silver chest. You will explore the designs produced in the River Valley through the collections at the Wadsworth Museum and build your own reproduction Bible box, while learning about scratch moldings and compass designs. This class is designed for the interested but inexperienced woodworker. Materials fee: $45, payable to instructor at first class, to cover the cost of wood and painting supplies.

CRN #11763 3 Thursdays, 5/4-5/25 (does not meet on 5/11), 6-9:30 p.m. (first class on 5/4 meets 6-8 p.m.) MCC Bldg. AST D124 Fee: $90

First Degree Reiki Training
Awaken your dormant healing abilities in this day-long workshop. Learn a thorough history of Reiki from its ancient origins to its adaptation to the modern office, hospital, and daily life. Participants will learn about the chakra system, Reiki principles, hand positions for healing, and attunement to awaken one’s ability to heal. Participants will also discuss the benefits of Reiki for both the client and practitioner. This class includes two Reiki sessions: one as a recipient and one as a Reiki practitioner. Please bring a blanket, pillow, and your lunch to class.
CRN #11691 1 Saturday, 2/25, 9 a.m.-4:30 p.m. MCC Bldg. AST D213
Fee: $150
Instructor: Dory Dzinski

Second Degree Reiki Training
Building on First Degree Reiki Training, this workshop introduces the first three ancient, sacred Reiki symbols that are used to discover the root of one’s problems, as well as to heal through distance and assist in the gentle release of emotions. Participants will also learn to create a sacred space, use meditation to connect to one’s guides, and learn how to construct and utilize a crystal grid. At the end of the workshop, students will incorporate the Reiki symbols to give and receive a full Reiki session and to send a distance healing as a second degree Reiki practitioner. Prerequisite: First Degree Reiki Training. If you have trained under a different Reiki master, please call (860) 512-2800 to speak with the instructor prior to registering. Please bring a blanket, pillow, and your lunch to class.
CRN #11700 1 Saturday, 3/25, 9 a.m.-4:30 p.m. MCC Bldg. AST D213
Fee: $150
Instructor: Dory Dzinski

Reiki III: Master
This workshop teaches Reiki practitioners about three additional sacred Reiki symbols to access healing on a spiritual level. Participants will utilize and receive advanced psychic healing during the hands-on session. Prerequisite: First Degree and Second Degree Reiki Training. If you have trained under a different Reiki master, please call (860) 512-2800 to speak with the instructor prior to registering. Please bring a blanket, pillow, and your lunch to class.

Photo-Journeying: A Trip through Self-Expression
For all the giving that you do for others, it’s now time to give back to yourself and replenish the waters of self-knowing. This hands-on course is designed especially to help caregivers reconnect at a quieter, deeper level. You will bring to class several photographs of yourself, which you think are accurate representations of who you are. At each session, you will alter these photographs, while writing down reflections on your self-image. Finally, you will assemble the altered images, your written thoughts and “found objects,” and build a fresh sense of self. The instructor will supply all necessary tools and “found objects.” You need to bring several photographs of yourself to the first session. Photographs will be altered, so please consider bringing copies. Materials fee: $15, payable to instructor at first class.
CRN #11741 3 Saturdays, 3/4-3/18, 9 a.m.-noon
MCC Bldg. LRC B144 Fee: $70
Instructor: Lysa Jolicoeur has been a mixed-media artist for many years and is currently obtaining a certificate in thanatology (death, dying, and bereavement). She has recently helped to launch Living Reflections, a photography service at North Central Hospice.

The Art of Ayurveda
The word Ayurveda is formed by linking the Sanskrit words “ayur” (life) and “veda” (knowledge). Translated, Ayurveda means the art and science of living. Ayurveda is the oldest system of medicine in the world, tracing its roots to ancient India (1500 B.C.). Ayurveda uses a full repertoire of natural elements—foods, spices, herbal medicines, colors, metals, gems, and sound—to treat and overcome illness and to continually strengthen the body and mind. Learn the basics of this ancient practice and how diet, cooking, yoga, breath work, meditation, exercise, and a vast pharmacopeia can be employed to help an individual achieve balance. Please bring a yoga mat or blanket for floor exercises, dress in comfortable clothing or exercise attire, and come with an empty stomach. Materials fee: $10, payable to instructor at first class, for dried herbs and roots used for everyday household remedies for flu, indigestion and minor ailments.
CRN #11705 5 Saturdays, 4/22-5/20, 9-11 a.m. MCC Bldg. LRC B144
Fee: $65
Instructor: Shalini Sharma was born and raised in India. She earned her bachelor’s and master’s degrees from Meerut University, India, as well as a diploma in Indian classical dance. She is also certified in Ayurvedic healing practices and teaches others to use this ancient healing system to create wholeness in mind, body and spirit.

Henna Body Art Basics
Henna is a safe, natural dye made from the red plant which bears its name. Henna dyes have adorned the skin of men and women since before the time of Cleopatra. Today’s Indian brides and some of today’s hottest celebrities (e.g., Madonna, Demi Moore, Naomi Campbell) are creating with henna. In this course, learn about henna and how to use it to create intricate, temporary tattoos (henna stains last just two to three weeks). Making henna body art is a fun activity to do with friends and a great project for moms and dads to do with their kids (especially at parties). Participants in this course must be at least 14 years old. Materials fee: $4, payable to instructor at first class.

Meditation as a Life Skill
In order to be successful with your goals for the coming year, it is important to find a quiet place within yourself to experience calm, focus and clarity. Learn how meditation can help relieve your anxiety, distraction and internal clutter, and give you the ability to listen to your innate wisdom. We will discuss and experience silent, guided, breath-focused, body-focused and prayerful meditation. You will learn a variety of techniques to enhance your meditation. We will also discuss how to evaluate if you’re doing it “right.” Join us in this journey to physical, emotional and spiritual well-being. Feel free to bring a pillow, mat or blanket if you wish to sit on the carpet. Journalers, please bring your notebooks along.

Chakra Studies
There are seven power centers in your body called chakras. The state of each chakra reflects the health of a particular area of your body. It also reflects your psychological, emotional and spiritual well-being. Every thought and experience you’ve ever had in your life gets filtered through these chakra databases. Each event is recorded into your cells. When chakra energy is blocked or misdirected, emotional and physical illness can arise. This course will introduce you to, and allow an exploration of, your chakras. Beginning with the first, the root chakra, we will build our knowledge and balance upward through the other six energy centers: sacral, solar plexus, heart, throat, the third eye, and the crown chakra. Classes will include discussion, guided imagery and experiential learning activities.

Massage—Hands-on-Healing
The origins of therapeutic massage are rooted in the common instinctual response to hold and rub a hurt or pain. It is found in all cultures as an integral part of health care and maintenance. Hippocrates, the father of western medicine, considered massage of prime importance in any health regime. With the re-emergence of holistic-health theories and therapies, therapeutic massage is experiencing a renaissance. Learn step-by-step techniques in this hands-on workshop for the beginner. Practice head, neck, shoulder, back and arm massage. Not only does it feel good, massage speeds the return of un-oxygenated and toxic blood from the extremities and shortens recovery time from muscular strain by flushing the tissues of lactic acid, uric acid and other metabolic wastes. Come alone or sign up with a friend. Participants will practice on each other. Wear loose, comfortable clothing and bring an exercise mat, sleeping bag or thick blanket to lie on, and a pillow, towel and favorite body lotion. Also, please bring your lunch (or a snack and drink) for mid-session nourishment.
CRN #11931 1 Saturday, 4/29, 10 a.m.-2 p.m. MCC Bldg, AST D213 Fee: $35
Instructor: Diane Marion is a nationally certified, Connecticut-licensed massage therapist, herbalist, Usui Reiki master/teacher and doula, who has been practicing for more than two decades. She is the owner of a massage therapy practice, Changes at Hand, in Willimantic, which offers services that nurture the mind/body/spirit connection and holistic healing.
Learn to See Auras
Seeing is believing! It is said that the aura (energy field) that emanates from each of us reflects the vibrations of our soul. The colors seen in our aura tell of our physical and emotional health. Did you ever wonder why you choose the color clothing you wear each day? Why some days, red or green just won’t do? In class we will learn how to sensitize our eyes to see these subtle energy fields which surround our body and explore the meaning of the different colors that are seen.
CRN #11706 1 Thursday, 3/2, 6-9 p.m. MCC Bldg. LRC B144 Fee: $30 Instructor: Karen Emerick has facilitated holistic health and personal growth workshops for more than 25 years. She helps students empower themselves toward increased movement, freedom from pain, and enhanced well-being.

Foot Massage: The Full-Body Pick-Me-Up
Foot massage does more than just make your feet feel better. Asian physicians have known for centuries that the soles of your feet contain thousands of nerve endings, each connecting to a gland, organ, or muscle somewhere else in your body. Massaging your feet can actually increase your circulation, relax your muscles, drain your sinuses, stimulate your organs and glands, and give you an instant, full-body “pick-me-up.” In this course, you’ll learn the “mapping” of your body through your feet and practice specific techniques on yourself and others. Feel transformed and revitalized! Students should dress comfortably and bring a mat, pillow, pencil, and paper.

WHAT IS THE FELDENKRAIS METHOD®?
The Feldenkrais Method® is a mind/body integration technique that uses movement to enhance the communication between the brain and the body. Through stress, injury, habit or imitating the movements of others (e.g., a child copying a parent’s walk), many of us develop chronically sore, tight muscles and stiff joints. Habitual movements become unconsciously ingrained in our minds. Dr. Feldenkrais spent a lifetime solving this dilemma by creating a method comprised of “lessons for the nervous system.” This method involves a series of light movements performed slowly and easily, without strain or pain. Not everyone is suited to it temperamentally, however, since it requires patience and an ability to pay attention to small sensations.

Help for Stiff Neck, Tight Shoulders, Aching Back: The Feldenkrais Way
Stiff neck? Tight shoulders? Aching back? There is a simple solution! Through stress, injury or habit, many of us develop chronically sore, tight muscles and stiff joints. This “stiffness” is registered in the brain and plays itself over and over again like a tape loop. Learning how to stop that tape is what the Feldenkrais Method® is all about. This gentle exercise will soon have your stiff and aching joints feeling freer and more mobile. These deceptively simple, ingeniously designed movements are done on the floor. Participants must be physically able to negotiate themselves to and from the floor position. Please bring a mat (the length of your body), a bath towel, and two small, hard pillows (couch pillows are good). Dress comfortably in loosely fitting clothes.

Increase Your Body’s Flexibility
Attention golfers, yogis, tai chi practitioners, athletes—can you touch your forehead to your knees, put your foot on your head? Can you stand on one leg without faltering? Golfers, do you have a perfect swing? Athletes, would you like to improve your mobility? Imagine increasing your range of motion significantly in one hour! Quickly advance your exercise or practice routines to unimaginable levels. What keeps your body from increasing its flexibility? Habitual patterns of movements that register in your brain play themselves over and over again. Learn how to free yourself from these patterns. Participants will learn a deceptively simple, ingeniously designed set of gentle movements that are done on the floor. You will soon feel freer in your movements and more mobile in your joints, while increasing your range of motion significantly in one hour! Quickly advance your exercise or practice routines to unimaginable levels. What keeps your body from increasing its flexibility? Habitual patterns of movements that register in your brain play themselves over and over again. Learn how to free yourself from these patterns. Participants will learn a deceptively simple, ingeniously designed set of gentle movements that are done on the floor. Painful Wrists, Tingling Arms, Stiff Neck: Help for Repetitive Strain Injury (RSI)
Shooting pain, muscle spasms, and decreased upper-body coordination may all be signs of Repetitive Strain Injury (RSI). The constant pressure and tension of repetitious activity does a lot of damage. RSI accounts for one-third of all workplace injuries. This frustrating plague of modern society has forced computer technicians, musicians, machinists, athletes, and assembly line workers to turn to the Feldenkrais Method® for relief from pain. Learn ergonomically correct techniques that align your body in a natural, non-stressed position. The Method’s gentle, slow movements reduce strain on the joints, ease muscle tension, stretch tightened tissues, and heal the damage wrought by repetitive body motions. Please bring a cushioned mat the length of your body (a yoga mat is not appropriate), a bath towel, and two small, hard pillows (couch pillows are good). Dress comfortably in loose-fitting clothes.

An Introduction to Pagans, Witches and Wicca
What most of us know about witches and witchcraft comes from pop culture (“Charmed,” “Harry Potter”) or from our dim memories of historical events and classic literature (Salem witch trials, “Macbeth”). There’s a lot more to Wicca and paganism, or “the old religion,” than the clichéd image of black-clad hags riding the skies on broomsticks. Wicca has its roots in Paleolithic times, some 25,000 years ago, and pagan celebrations are often the basis for Christian holidays. This course will provide open-minded individuals with an introduction to Wicca, paganism and New Age concepts related to living with and loving magic. Topics include the history of witchcraft, the Wheel of the Year (the Wiccan calendar of festivals and rituals), esbats and sabbats (new moon and full moon celebrations), and the elemental world. The final class will be a magical potions workshop whereby students make and bring home their own potion. Put a little “magic” in your life! Materials fee: $10, payable to instructor at first class.

CRN #11814 4 Mondays, 5/8-6/5 (does not meet 5/29), 7-9 p.m.
MCC Bldg. LRC A226 Fee: $50
Instructor: Faith McCann is an MCC graduate, martial arts instructor and a third degree Wiccan priestess. She has practiced the Wiccan religion and has studied the history of religions, Wicca, witchcraft and magic for more than 20 years. Faith is also the owner of Enchantments, a Wiccan Metaphysical Center for the Magical Arts, located in Manchester.

Messages from Beyond
Do you have a desire to speak with or receive a message from a loved one who has gone to the other side? Are you doubtful or perhaps more than a little curious as to whether it’s even possible? You don’t need tickets to John Edward’s popular television show, “Crossing Over,” to see a medium at work, in person and up close. Let Joyce bring you a “message” from beyond in this fun and potentially insightful event. In Joyce’s own words, “A medium can be thought of as a telephone connector allowing communication to flow between two planes of existence.” Bring an open mind, pen and paper, and a tape recorder (if desired). Join Joyce to “dial up” the other side.

New Healing Practices for Stressful Times
Feeling stressed but not sure about the best way to manage it? Have you always wanted to try meditation or another mind-body stress management practice but weren’t sure how to start? This course will help you identify your personal stress response patterns and give you the chance to experiment with a variety of healing practices for managing stressful times in your life. You will complete a self-assessment on personal stress triggers and response patterns, and then identify the stress-management practices that may be most helpful to you. Through video and discussion, you will learn how the mind and the body communicate when under stress, as well as when in a relaxed state. Each week new techniques will be presented and practiced in class, including breathing exercises, progressive muscle relaxation, journaling exercises, meditation, and guided imagery. Wear comfortable clothing and shoes, and please bring a notebook/journal, small blanket, and pillow.

**Pro Engineering Wildfire CAD Introduction**

Pro Engineer is a world-class, three-dimensional design solution that provides engineers and designers with the software to create digital models. Students will learn how to create an engineering part in a three-dimensional environment. The user will learn how to manipulate the part by adding features, viewing and editing the structure with the intention to create a desired part. This course will teach students how to maneuver within the interface and workspace with commands and menus. Focused hands-on learning will provide the skills needed to excel in computer-aided design. Recommended text: Getting Started with Pro/Engineer Wildfire, Rizza, is available at your local bookstore.

**Photoshop Elements**

Professional photographers rave about Adobe Photoshop. Now, there’s Photoshop Elements 3.0, a new photo-enhancement and manipulation program designed specifically for amateur photographers, hobbyists and business users looking for an affordable, easy-to-use but powerful digital-imaging tool. Photoshop Elements is built on the same editing engine as its professional cousin, Adobe Photoshop, but it’s easier to learn and use. With Elements it’s easy to accomplish a variety of tricks and techniques that will enhance your photographs. Alter the color, contrast or brightness; change the size of a picture; remove unwanted elements; fix the dreaded redeye of your subjects, or combine the best of two photos, quicker and easier than ever. Elements contains features designed to download digital pictures from your camera or scanner directly into the program, organize your photo files, and has functions that allow you to output your finished images easily to the web or to print. Learn Photoshop Elements 3.0 and rub shoulders with the pros. Prerequisite: Basic Microsoft Windows skills.

Security: Securing Your Identity in the Information Age
The Federal Trade Commission released a report in September of 2003 naming identity theft as the fastest growing crime in America today. Based on their statistics, 9.9 million Americans were victimized by identity theft last year alone. The FTC warned that these thefts cost businesses $48 billion and $5 billion in out-of-pocket expenses to individuals in 2002. Nearly one in eight U.S. adults has been victimized by identity theft in the last five years. This course will demonstrate to students how to determine whether or not their identity has been stolen, what to do if their identity was stolen, as well as methodologies to safeguard one of the most important assets they have—their good name.

**Cheese Danish, Bear Claws and Concha**

The next time you crave something rich and sweet, you’ll be glad you took this course! First, learn how to make cheese Danish like a pro. This heavenly treat has a delectable cheese filling and dough made with sour cream. Believe us when we tell you, nothing on earth compares! Next, prepare to sink your teeth into a wonderfully rich, almond-filled Bear Claw, named for its likeness to a fingered paw. Your family and friends won’t be able to keep their “paws” off of them! And finally, try your hand at making Concha. These sweet buns (shaped like seashells, hence the name) are pleasing to the eye and palate. Is your mouth watering yet? Participants should bring dish towels, pot holders, and a medium-sized bowl to class. Materials fee: $10, payable to instructor at beginning of class.

**CRN #11710** 1 Saturday, 3/11, 12:30-4 p.m. MCC Bldg. Lowe L293 (South Kitchen), meet at Cheney Dining Room Fee: $45

Instructor: Dorothy Alderman attended the Culinary Institute of America and the Institute of Gastronomy and Culinary Arts. She has been taught cooking and baking for more than 20 years.

**Jewish Cooking**

You don’t have to be Jewish to enjoy Jewish food. The Jewish people have adopted recipes from many countries into a delicious medley of tastes. You will learn classic recipes handed down from generations and which originated in Poland, Germany, Russia, Austria, and Syria that are homey enough for everyday meals and special enough for festive occasions. Cook and feast on latkes (potato pancakes), knishes (savory filled pastry), cheese blintzes (crepes), sweet and sour unstuffed cabbage, chicken soup with knaidlach (matzo balls), and ma’amoul (nut-filled cookies). Participants should bring a sharp knife, dish towels, and pot holders to class. Materials fee: $12, payable to instructor at beginning of class.

**Authentic Chinese Dumplings**

If you like Italian ravioli or Polish pirogi, you’ll love Chinese dumplings. A staple of northeast China, where the instructor comes from, these gastronomical delicacies are eaten every day for seven days during Chinese New Year. Students will learn how to make the dumpling dough and shape it using the ancient hand-rolled method that has been passed down through the centuries. Students will also learn how to fix the basic meat filling for both dumplings and wontons, as well as how to make wonton soup with vegetables in chicken stock. Both the boiled and fried cooking method of dumplings will be demonstrated. Materials fee: $10, payable to instructor at beginning of session.

**CRN #11816** 4 Thursdays, 3/9-3/20 6:30-8:30 p.m. MCC Bldg. Lowe L292 (North Kitchen), meet at Cheney Dining Room Fee: $80

Instructor: Grace Chao Rydingsward, originally from China, grew up in a home of 10 children, where her mother had the extraordinary ability of making something wonderful from very simple ingredients, including dumplings. She has taught Chinese cooking classes in New York and Pennsylvania.
Chai, Curries, and Chutneys

The hallmark of Indian cuisine is in its variety of flavors and aromas. Asian Indians use exotic spices and numerous types of blends in preparing a variety of dishes. The usual Indian meal consists of at least one curried dish and a condiment such as chutney (a relish made of fruits, spices, and herbs). North Indians are also fond of chai, a tea blend mixed with herbs and spices to enhance the flavor, as well as to add healing properties. This class will focus on these three components of a typical Indian meal. Students will learn to make a variety of curried dishes; chutneys and other condiments; and chai tea and other drinks.

Materials fee: $15, payable to instructor at first class.
CRN #11786 3 Sundays, 4/23-5/7, 10 a.m.-1 p.m. MCC Bldg. Lowe L293 (South Kitchen), meet at Cheney Dining Room

Fish and Shellfish: The Ocean’s Bounty

Discover how to make the most of fresh seafood, which is brimming with nutrition and low in calories and fat. In this hands-on class, prepare Seafood Newburg, cod and vegetables en Papillote, and a scrumptious almond-encrusted salmon. Shellfish dishes include shrimp scampi, spicy shrimp sauté, and sea scallops Americaine. Participants will learn proper selection and handling of fish and shellfish, and how to prepare complementary sauces for seafood dishes. Materials fee: $15, payable to instructor at beginning of class.

Cuisine

The Fundamentals and Basics of Wine

In four consecutive weeks, the instructor will explain grape varieties, wine history, and wine types, such as aperitif, appetizer, red table, white table, dessert, fortified, sparkling, late harvest, and ice wines. This class is for anyone who wants to learn about wine in a proper and enjoyable manner. Wines from all of these categories will be explained and tasted each week. Early enrollment is suggested, as this course can only admit a limited number of students. Please bring some light snacks or munchies; glasses will be supplied. Materials fee: $90 (for four weeks), payable to instructor at beginning of first session.
CRN #11713 4 Fridays, 2/24-3/17, 6:30-9:30 p.m. MCC Bldg. Lowe L294 (Cheney Dining Room) Fee: $99
Instructor: Gene Spaziani is a retired MCC professor who started the first wine classes in Connecticut at MCC in the early 1970s. He is a noted wine journalist and author who writes the weekly wine column for the Journal Inquirer.

Big and Gutsy Red Wines

For those who love their red wines big and bold, this is the course for you. The California winemakers are making many red wine varieties in the 13-16 percent alcohol range, and other countries are following suit. These luscious wines require suitable foods to match their complex and rich flavors, and some of these appropriate foods will be discussed. This is a rare opportunity to taste some of the best red wines available. Please bring some light snacks or munchies; glasses will be supplied. Materials fee: $20, payable to instructor at beginning of class.
CRN #11709 1 Friday, 4/14, 6:30-9:30 p.m. MCC Bldg. Lowe L294 (Cheney Dining Room) Fee: $25
Instructor: Gene Spaziani

The ABCs of Wines: Anything but Chardonnay

Although Chardonnay is the most popular white wine in the world, there is a universal trend to unseat its lofty position and replace it with other white wines. We will explore and taste some of the world’s best white wines other than Chardonnay. This will be a very educational and enjoyable session. Please bring some light snacks or munchies; glasses will be supplied. Materials fee: $20, payable to instructor at beginning of class.
CRN #11712 1 Friday, 5/5, 6:30-9:30 p.m. MCC Bldg. Lowe L294 (Cheney Dining Room) Fee: $25

The Connecticut Cultural Heritage Arts Program: Three Daylong Bus Tours

Each bus tour leaves from and returns to MCC, Parking Lot B, and includes an ethnic meal. A separate registration is required for each tour. Space is limited—please register early!

Tibetan Culture in Connecticut

The tour visits Old Saybrook, the center of Connecticut’s growing Tibetan community. At the community’s cultural center, Dharma Jewel, participants will view Tibetan artwork, meet local Tibetan artists and musicians, and learn about the culture and history of Tibet from members of the Tibetan Association of Connecticut. Participants will also visit the home of a local Tibetan family. After the visit to Old Saybrook, the tour will move to Middletown for lunch at “Little Tibet,” a new restaurant run by Phumba, an artist and trader from Tibet. Course fee includes the cost of lunch. CRN #11848 1 Saturday, 3/25, 9:30 a.m.-4:30 p.m. Bus tour leaves from and returns to MCC, Parking Lot B (there is no classroom). Fee: $75

Finnish Culinary and Cultural Adventure

Eastern Connecticut has a long-standing and very active Finnish community. Participants will spend an afternoon as guests of the Finnish American Heritage Society, including a tour of Finn Hall. The hall features a newly restored screen backdrop to its theater stage, which is an artifact from the local Finnish history archives. Also included will be Finnish weavers talking about their craft and demonstrating the art of weaving on looms in the hall. Finnish cooks will provide a sample of their cuisine. Course fee includes the cost of lunch. CRN #11844 1 Saturday, 4/22, noon-6 p.m. Bus tour leaves from and returns to MCC, Parking Lot B (there is no classroom). Fee: $75

Laotian Food and Festival

This tour travels to the new Laotian community center in Morris for the Water Purification Festival, a Buddhist celebration of spring and new beginnings. Participants will attend the morning ceremony and view traditional Laotian folded paper ornaments, wood carvings, and artisan booths. Dr. Thongvahn Norinth of the Connecticut Lao Association will talk to visitors about this large and interesting community. The tour will then leave Morris and move on to Hartford, where cultural leader and chef Manola Sidara will prepare Laotian food at her restaurant, East West Grille, as well as present a dance performance by her group, Lao Narthasin. Course fee includes the cost of lunch. CRN #11845 1 Sunday, 5/28, 9 a.m.-4 p.m. Bus tour leaves from and returns to MCC, Parking Lot B (there is no classroom). Fee: $75

Instructor: Lynne Williamson received a graduate degree from the University of Edinburgh, Scotland, has been a museum professional for nearly 30 years, and is an adjunct instructor at the University of Hartford. She is director of the Connecticut Cultural Heritage Arts Program at the Institute for Community Research, a Hartford-based, statewide, folk arts initiative. Lynne will lead each of the three cultural bus tours.

Cultural Exploration for Travelers to China

This class is designed for anyone fascinated by Chinese culture or those planning to travel to China. Explore Chinese history, geography, culture, and tradition and learn a few words of simple conversational Chinese. The instructor will provide an up-to-date analysis of the political climate in modern China and discuss food and eating etiquette, as well as travel tips. Participants will learn about popular travel routes in China and scenic, must-see attractions in Shanghai, Suzhou, Hangzhou, Guilin, Xi’an and Beijing. CRN #11849 2 Tuesdays, 2/21-2/28, 7-9 p.m. MCC Bldg. LRC B144 Fee: $35

Instructor: Ming Hua He is founder and director of the Chinese Cultural Exchange, an organization dedicated to promoting Chinese-American relations through education and cultural events. She has also taught Chinese language at Heiligian University in China, and accompanied the MCC tour of China in 2000.

Eastern European Culture through Film and Literature: A Sequel

One of the more fun and interesting ways to learn about another culture is to study its films and literature. In this course, you will study the cultures of Russia, Lithuania, Poland, Ukraine, and other Eastern European societies through such classic fairy tales as Ruslan and Ludmila, Pushkin’s Sleeping Beauty and Seven Brothers, Aksakov’s The Scarlet Flower, the ancient Russian legend, Sadko, and the horror classic, Vij or Spirit of Evil by Gogol. The course will explore Eastern European culture and its classical writers, arts, costumes, architecture, and history. CRN #11831 8 Fridays, 3/24-5/19 (does not meet 4/14), 7-9 p.m. MCC Bldg. V6 V162 Fee: $99

Instructor: Rina Martin is a native of Lithuania and speaks Lithuanian, Russian and Polish. She has been teaching all three languages at MCC since 2002.

Town Meeting in a State of Chaotic Blue

War, corruption, insurgents, indictments, greed, lost trust, lay-offs, sky-rocketing debt—for town meeting discussions it can’t get much better than this, unless you add suicide bombers, sick birds, a Congress from hell, the disappearance of ethics, global warming, and the re-election chances of Joe Lieberman. It’s time for rage, primal screams, get even, a yuk or two, candor, and, heaven forbid, truth. It’s time to speak your mind, Joe Lieberman. It’s time for rage, primal screams, demonstrations, get-even, the disappearance of ethics, global warming, and the re-election chances of sky-rocketing debt—for town meeting discussions it can’t get much better.

Instructor: Charles F.J. Morse has spent a lifetime lamenting, laughing and languishing in Connecticut’s world of politics and government. He retired from the Hartford Courant after a 38-year career observing, reporting, interpreting, editing, and columnizing Connecticut’s moments of glory and contrasting stages of pratfalls in this state of New England blueness.

The Art of Egypt

As early as 2700 B.C., the Egyptians were making enduring works of art. Egyptian art was religious, and their religion centered on the afterlife. Their tombs were substantial and highly decorated. Participants in this seminar will examine the culture and religion of the people from the lands flanked by the Nile. Explore the architecture and significance of the Great Pyramids (the largest was built with more than two million, two-and-a-half-ton stone blocks) and ancient temples, like the Mortuary Temple of Queen Hatshepsut, the only female Pharaoh. Join us for a fascinating look at the art treasures left behind in the tombs of the other Pharaohs and nobility.

Instructor: Dr. Akram Erik-Soussi earned his doctoral degree from the University of Florence and frequently lectures about art and architecture. He has traveled to Egypt on many occasions.
More Great Books

Everyone who reads regularly likes to discuss books with others. The MCC Great Books Series offers a mix of new and classic literature each semester. Class meets six times at two-week intervals to allow time for reading. Books are available at your local bookstore and at most libraries.

CRN #11664 6 Wednesdays, 2/15-4/26 (meets every other week), 3:30-5 p.m. MCC Bldg. AST C209 Fee: $25
Instructors: Dr. Jonathan M. Daube, President of MCC; Jana Sime, Math faculty; Kimberly Hamilton-Bobrow, Jeanine DeRusha, Michael DiRaimo and Patrick Sullivan, English faculty; Peter Poulos, Computer Science/Technology faculty; and Steve Starger, Continuing Education staff.

2/15 - Uncle Tom’s Cabin by Harriet Beecher Stowe. Published in 1852, this novel follows the fortunes of a slave, the dutiful Uncle Tom. An anti-slavery book that was the second best-selling book in the world (the Bible being first), Uncle Tom’s Cabin touched off a flurry of criticism and praise in the 19th century.
Instructors: Kimberly Hamilton-Bobrow and Jana Sime

3/1 - The Golden Compass by Philip Pullman. This is the first book in Pullman’s acclaimed His Dark Materials fantasy trilogy. An eleven-year-old girl, Lyra, becomes swept up in an extraordinary adventure involving political intrigue, astonishing scientific discoveries, and marvelous secrets revealed about the universe.
Instructor: Patrick Sullivan

3/15 - The Dharma Bums by Jack Kerouac
Jack Kerouac’s follow-up to On the Road looks at the spiritual side of the Beats, as it follows Ray Smith (Kerouac) and friend Japhy Ryder (poet Gary Snyder) on a mountain-climbing trek in California’s High Sierras. The book takes a serious look at different aspects of Buddhism, but the pervasive seriousness is leavened by riotous scenes of Beat hi-jinks.
Instructor: Steve Starger

3/29 - Fermat’s Enigma by Simon Singh. This compelling book narrates the “epic quest to solve the world’s greatest mathematical problem,” a baffling theorem developed by 17th century mathematician, Pierre de Fermat. Singh explores 350 years of passionate individuals dedicated to solving Fermat’s Last Theorem.
Instructors: Jeanine DeRusha and Peter Poulos

4/12 - All the King’s Men by Robert Penn Warren. Winner of the Pulitzer Prize, this classic novel is generally regarded as the finest ever written on American politics. It describes the career of Willie Stark, a country lawyer whose idealism is overcome by his lust for power.
Instructor: Michael DiRaimo

4/26 - Hard Times by Charles Dickens. Published in 1854, Dickens’s Hard Times chronicles the appalling conditions of life in the mythical Coketown; preaches that the poor are entitled to the same justice, same healthy conditions, and same freedom as the rich; and attacks every kind of public pest, and ridicules the bureaucratic mentality that substituted banal scientific accuracy for imaginative reality.
Instructor: Dr. Jonathan M. Daube

A social with light refreshments for participants and instructors of the “More Great Books” group will take place immediately following the final book discussion on April 26 at 5 p.m. in AST T201.

Natural Disasters
Have you been wondering about all these natural disasters in the news? Do you want to know what causes them? Why they are so devastating? This course will explore these questions and more, using examples from recent and historical disasters, as well as movie depictions of disasters. Topics that will be covered include learning how to identify the natural causes of disasters, such as hurricanes, earthquakes, tsunamis, volcanoes, and floods, and in particular, those disasters that have hit the Northeast; understanding factors that contribute to the geographic distribution and frequency of natural disasters; the role of human activities in causing natural disasters; the ecological and social consequences of natural disasters; the challenges of disaster risk assessment, prediction, and mitigation; and increasing personal and family disaster preparedness. No previous science education is needed.

Dances of the Gods
Indian classical dance originated in temples, where it was used to illustrate the Hindu mythologies. However, you don’t have to be from South Asia to enjoy and benefit from the Dances of the Gods. In this fun and informative workshop for the novice, participants will learn a combination of various dance forms from India that combine body movement and yogic mudras (hand positions that form part of a Hindu prayer and that are believed to possess healing qualities). The combined techniques are designed to enhance strength and flexibility. Students will start with warm-up and stretching exercises and move into basic dance steps, learning to dance to music, learning to dance to slow and faster rhythms, moving with ease, working with yogic mudras, learning step coordination, working on dance routines and group dances, and learning to dance to the complex and soul-stirring drum beats of Indian classical music. Wear comfortable dance/exercise attire and footwear (jazz shoes, ballet slippers or socks). Optional hand cymbals and anklets are available from the instructor for an additional $6 fee. Please bring a combination lock in order to store your personal belongings during class.

CRN #11714 8 Fridays, 4/21-6/9, 6:30-8:30 p.m.
MCC Bldg. Lowe L155 (Aerobics Room) Fee: $99
Instructor: Shalini Sharma holds a diploma in classical dance from India. She has performed on stage in India and has participated in several cultural events and festivals in the United States.

Introduction to Commercial Acting
Ever watch a TV commercial and think, “I can do that!” Don’t know where to start? This class is your opportunity to get acting basics, while enhancing your communication skills and building confidence in a relaxed, stress-free environment. This class will explore varied acting and improvisational skills targeted specifically to the needs of a potential commercial audition. Each week will involve feedback and critique of class work. Students should bring a blank VHS video tape to record class work for home viewing.

CRN #11824 8 Mondays, 2/27-4/17, 7-9 p.m.
MCC Bldg. LRC A108 Fee: $99
Instructor: Michelle Pawlina-Martins is a professional actress, motivational speaker and trainer for the “Making It Count” programs, and a certified teacher. She has appeared in more than 20 professional productions in theaters from New York to Florida, and in nearly 40 commercials, films, and industrials. She also completed the teaching certification program at Southern Connecticut State University.

Consider Yourself Confirmed!
MCC notifies you only if a course cancels or has schedule changes. If you don’t hear from us, assume you are registered.

Improvisational Acting
Do you want to have fun, laugh a lot, and let the actor in you out? Everyone can act; everyone can improvise. Using specifically designed exercises and structured improvisations, you will perform in a comfortable environment where you will shine as you take your first steps on stage. This type of training provides a foundation of ease and freedom, not only for further dramatic training, but also for the social and professional interactions in your everyday life. If you want to build confidence, think creatively on your feet, and inspire your imagination, then this is the course for you. No previous experience is necessary. Participants must be at least 18 years old.

CRN #11832 9 Mondays, 3/13-5/8, 7-9 p.m. MCC Bldg. AST E113 (Auditorium Backstage) Fee: $130
Instructor: Deb Popillo is an actress and director for a professional acting troupe. She has been teaching acting for more than 19 years at MCC, and also currently works as a casting director for videos, industrials, and commercials.

Advanced Acting
The growth of an actor is a continuous process. This course will present the actor with challenging scene-study situations designed to improve acting and script-analysis skills. Students will learn to see themselves as instruments, recreating human behavior with ease and comfort through a system that gives the actor verbal, physical and emotional freedom when on stage. You’ll learn the process that goes into developing a character and what goes into making a performance believable. Choose your own play, or the instructor will provide a script for you. Students will be encouraged to work outside of class with their scene partners. Some prior experience in the theater is preferred.

CRN #11833 9 Wednesdays, 3/15-5/10, 7-9 p.m. MCC Bldg. AST E113 (Auditorium Backstage) Fee: $130
Instructor: Deb Popillo

Introduction to Voice-Over: Put Your Mouth Where the Money Is
The voices that you hear behind TV commercials and movie trailers belong to real people who make good money doing what they do. Learn about the many opportunities that exist in the world of voice overs and how you can become part of that world. Commercials, industrial films, narrations, characters and animation are just a few of the possibilities waiting for good voice-over artists. Students in this course will learn what producers are looking for, where the auditions are, the pros and cons of having an agent, and much more. Turn your natural speaking voice into a fun and lucrative career. An invitation to tour a Hartford area recording studio will be extended to those who are interested.

CRN #11850 4 Thursdays, 4/27-5/18, 7-9 p.m. MCC Bldg. LRC B213 Fee: $50
Instructor: Eric Michael Summerer is a professional voice-over artist with years of experience in the radio and recording industries. Commercial and narration clients include New Balance, Medco Health, Nestle, and Grafton, Vermont. Eric will also be starring in an upcoming game for the PlayStation 2.
Family & Consumer Issues

The People’s Law School
The Civil Justice Foundation is excited to offer this seven-week series of public education courses, which explain how our legal system works. Each week you will be taught a different area of law by a local attorney or judge who specializes in that area. After this course, you will have a better understanding of the following topics: the Court System & Structure; Criminal Law; Landlord/Tenant and Real Estate Law; Probate Wills & Estates; Worker’s Compensation Law; Family Law; and Personal Injury Law. A 200-page course book is included in the fee.
CRN #11892 7 Thursdays, 2/23-4/6, 7-9 p.m. MCC Bldg. V6 V162
Fee: $25
Instructors: Attorney Eric Onore and other local attorneys and judges.

What the Truth is about Your Credit Score
Most Americans have been misinformed about the reason for their credit score. Learn the mystery out of your credit score and learn the facts. Learn what a credit score is, step by step, and how it affects you and your life, especially when obtaining a home mortgage. Receive a credit report with your credit scores from all three major credit bureaus. Learn how easy it is to increase your credit score with a few simple tasks.
CRN #11905 2 Mondays, 3/6-3/13, 6-8 p.m. MCC Bldg. Lowe L213
Fee: $25
Instructor: Mark S. Chu Jr. is a mortgage consultant with ten years’ experience in residential and commercial lending, specializing in difficult credit loans. He was educated in the process of credit scoring by all three major credit bureaus.

New Mortgages and the Home Buying Process
This class is intended for those who are considering purchasing their first home, as well as those who are repeat buyers interested in the most up-to-date information regarding the mortgage industry. Participants will gain knowledge on the following topics: completing a home buying strategy; the impact of a credit score; pre-approval vs. pre-qualified; choosing a realtor; effectively negotiating the purchase of a home; choosing a suitable loan program; rent vs. own; and if applicable, the most prevalent mistakes that sellers make when selling their home. There will be handouts regarding each of the topics to aid in the learning of the material.
CRN #11902 1 Monday, 5/15, 7-9 p.m. MCC Bldg. LRC B144
Fee: $25
Instructor: Eric Kincheloe has nearly ten years of mortgage lending experience. He also has experience in training other mortgage professionals and is currently a branch manager for a national lender.

Reverse Mortgage Education for Seniors
Intended specifically for seniors, age 62 and over, who own a home or are considering purchasing a home, this class will provide key information about reverse mortgages. A reverse mortgage allows seniors the ability to tap into their home’s equity and to receive either a monthly income, a lump sum of cash, or a line of credit. There are no income or credit qualifications and there is no repayment until the homeowner permanently leaves the home. Reverse mortgages are gaining popularity for the nation’s seniors. This class is designed to answer many of the questions regarding how a reverse mortgage works and the reasons for considering this type of loan program.
CRN #11906 1 Monday, 5/22, 7-9 p.m. MCC Bldg. LRC B144
Fee: $25
Instructor: Eric Kincheloe

Surviving Your Kid’s Adolescence
Has your child suddenly turned into a secretive, eye-rolling, instant-messaging, telephone-talking stranger? Welcome to adolescence, the time when every kid’s Number 1 task is individuation from their family of origin. So how do we, as parents, cope with our task of keeping our kids safe, while allowing them the appropriate freedom to discover who they are becoming? How do we know when our teens are displaying normal, healthy adolescent behavior and when it’s moved into the more serious realm that spells real trouble for them? This seminar, a combination of experiential exercises, education and support, will cover topics including pop culture’s influence on teen sexuality; substance use and abuse; and physical appearance issues that often lead to eating disorders. You’ll learn negotiation strategies that really work with a wide array of everyday struggles that often erupt during these years.
CRN #11911 1 Monday, 3/27, 7-9 p.m. MCC Bldg. LRC B149
Fee: $25
Instructor: Penny Field holds a master’s degree in counseling psychology and has a private consulting practice in East Hartford. She has been teaching, facilitating groups, and working with individuals and families for many years. She is also a parent of two teenaged daughters.

Navigating the College Admissions Process with Your College-Bound Child
Your child’s college admissions journey requires careful planning, objective guidance, personalized strategies, and knowledge of the competitive admissions environment. This course is designed for the parent who wants to help his or her child be a savvy college applicant. Strategies to meet the challenges of helping your son or daughter select and be selected by the right college or university to meet his or her talents, interests and abilities will be discussed. You will learn why planning and college visits are key; how to compare colleges; how the admissions process works; what to do about financial aid; and how to develop a compelling case for admissions.

Introduction to Pilates
The Pilates method may be today’s hottest exercise and the favorite workout of trim Hollywood actresses and international super models, but it has been endorsed by physicians for almost a century. Originally developed by Joseph H. Pilates in Germany in the early 20th century to help strengthen and condition muscles, Pilates is the ultimate mind/body exercise for anyone who wants to tone, streamline and realign his or her body without the bulked-up results of more conventional workout methods. This mat-based exercise combines elements of yoga and bodywork to strengthen the core muscles of the abdomen, while increasing flexibility in the legs, arms and smaller muscle groups. Learn how to firm and tone your muscles to improve posture and facilitate proper and graceful movement throughout your daily life. Participants should wear comfortable clothes and bring a mat. Non-marking athletic shoes must be worn. Please bring a combination lock in order to store your personal belongings during class.
CRN #11733  8 Saturdays, 4/8-6/10 (does not meet 4/15 or 5/27), 11 a.m. -noon  
MCC Bldg. Lowe L155 (Aerobics Studio)  
Fee: $80  
Instructor: Lorelei Chang is a certified Pilates and yoga instructor. Originally trained in China in ballet, modern and Chinese folk dance, she is currently a staff member of the Connecticut Concert Ballet and the Department of Theater and Dance at Trinity College. Lorelei has more than 30 years of dance and 15 years of instruction experience.

Intermediate Pilates
This class is for students who have already taken Introduction to Pilates or who have had previous Pilates experience. Students will continue to develop their technique and will learn more advanced movements. Participants should wear comfortable clothes and bring a mat. Non-marking athletic shoes must be worn. Please bring a combination lock in order to store your personal belongings during class.

New! Stretch, Strengthen, and Smile!
Do you want to have more flexibility, stronger “abs,” or perhaps simply a better understanding of your own body? Of course you do, and so this class is for you! Students will learn effective stretching techniques that will enhance muscular performance, increase strength and endurance, and improve overall range of motion. The course will implement a variety of auxiliary aids, such as stretching bands and rope to help stretch different groups of muscles through the methods of yoga, Pilates, and AIS (Active Isolated Stretching). Participants should wear appropriate workout clothes and bring a mat. Non-marking athletic shoes must be worn. Please bring a combination lock in order to store your personal belongings during class. If you own a stretching band, please bring it to class. Otherwise, bands will be available for purchase from the instructor. Materials fee: $5, payable to instructor at first class for a length of rope.

Cardio Kick-Boxing Workout
Get the most out of your exercise time and have fun doing it! Burn up to 800 calories per session! Take the excitement, music and energy of an aerobics program and learn self-defense techniques in an action-packed work out. No prior experience needed; participants of any level can attend any class. The usual routine begins with warm-ups and stretching; then, on to the cardiovascular segment, where you’ll do basic punching and kicking moves to increase your heart rate; next, spend some time working with wave masters (a type of punching bag); and conclude your workout with some abdominal work and cool-down exercises. As these are continuous classes, beginning students follow along with the routine and learn from watching the instructor and other more experienced students. There is no person-to-person contact. No uniform is required. Please wear appropriate workout clothes. Students must be at least 16 years old. Equipment fee: $5, payable to instructor at first class. Personal Trainer National Certification
The World Instructor Training School’s (WITS) certification course is taught at colleges across the country. Come join this fun field and be a part of what ABC News.com states as the 4th hottest job in the U.S., with a national average of $25/hour. Whether a career move or for your own personal knowledge, get all the information you need to become a Certified Personal Trainer. This challenging course is taught over a 5-week period for better retention and skill competency. The National Exam is held on the 6th week. 15 hours of hands-on, practical training prepare you to actually work with clients. Another 15 hours of lectures include (but are not limited to) anatomy, exercise physiology, nutrition, and health screening. Subsequent proof of CPR and a 20-hour internship will prepare you to work successfully in the fitness field. This is a great opportunity to network with employers, while gaining valuable experience. Taking this course will also help you prepare for the National Boards. For more information, please visit: www.witseducation.com. Call (888) 330-9487 to order the required textbook for the course. Textbooks should be purchased in advance and reviewed prior to first class. Non-marking athletic shoes must be worn. Oh Craps!

The most fashionable men of 18th- and 19th-century England rolled dice in a game called Hazard in luxurious private gambling houses. Hazard would eventually evolve into a game called Craps. When the chips are flying, people are yelling and the dice are rolling, Craps is one of the most exciting games around. Craps is not as difficult as it looks; with a little help, anyone can learn. This course is designed primarily for beginners, but intermediate and advanced players are welcomed. Topics include rules, terms, layout, odds, bets, betting strategies, probability, and money management. Interactive lecture, class discussion, simulated play on a regulation layout, and voluntary homework assignments will make this course as much fun as it is informative. Materials fee: $28, payable to instructor at first class, for workbook, regulation casino dice and laminated reference card.

Estate Planning for Retirees
“How can I protect my money and property in my retirement years?” There are plenty of myths about estate planning, and this seminar will focus on dispelling those myths. Through presentation and discussion, we will cover topics such as wills, living wills, power of attorney, health care powers, and different types of trusts. If you’re concerned about taxes (and who isn’t?), this seminar will present avoidance strategies for probate, as well as state and federal gift and death taxes. You will also be shown ways to protect their assets against health care costs, and the course will even touch upon document storage options. Primarily geared toward retirees, this seminar will address specific questions and needs. So, if you’ve been putting off this first step, now’s your chance to get off the sidelines. Come join us for this low-key and informative, two-part seminar.

Investment Strategies for Retirees
Are you retired? Concerned about stock market declines? If so, this course is designed for you. Most people want to take charge of their money, but often feel that they don’t have the knowledge. Here’s your chance to learn about putting together a portfolio that suits your needs. Gain a better understanding of investment choices. Learn the “ins and outs” of mutual funds, IRAs, Roth IRAs, 401Ks, TSAs, and pension funds. Acquire the knowledge to deal with taxation issues. We’ll look at a Nobel Prize-winning model on asset allocation and, most importantly, discuss how to protect against losses during a downturn in the market. You will also be provided with a suggested reading list. This seminar is for both beginning as well as more experienced investors, and provides a great opportunity to ask questions in a relaxed and informal setting.

Instructor: Don Donegan is director emeritus and founder of the Connecticut Songwriters Association (CSA). He is a full-time singer/songwriter and musician and owns Rainbow Music, a teaching and recording studio in Glastonbury.

Songwriting and the Music Business

So you want to be a songwriter, even though you haven’t yet written a melody or a lyric? Or maybe you’ve written a stack of future standards or have always wanted to learn, then come join us for this introduction program at the East Hartford-Glastonbury Magnet School.

CRN #11825 3 Tuesdays, 3/21-4/4, 7:15-9:15 p.m. EHCCC Room 2
Fee: $70
Instructor: Don Donegan

Drum Team: Introduction to the West African Djembe Drum Ensemble

Using beautiful, traditional, hand-carved drums provided by the instructor, participants will enhance their understanding of rhythm through practice patterns and traditional phrases. In this structured, hands-on drum course, participants will learn correct hand and stick techniques, how to start and stop the ensemble, and traditional accompaniments to West African rhythms. This music is fascinating and fun to play, and all levels are welcome.

CRN #11836 3 Fridays, 3/17-3/31, 6:30-8:30 p.m.
MCC Bldg. AST E113 (Auditorium Backstage) Fee: $40
Instructor: Rick Liegl has studied and performed traditional stick and hand drumming from West Africa for more than ten years. In 1999, he created Hand’s On Rhythm Circle, through which he has introduced thousands of Connecticut residents to West African drumming. He is also a founding member and a lead soloist for Soli Soma Djembe Orchestra, a traditional West African percussion group that performs throughout New England.

Intermediate Piano

A continuation of Beginning Piano, students will learn transposing, harmonization, composition, and sight-reading. These skills, plus much more, will be developed in this diverse and creative class. Students must have knowledge of sharps and flats, and the ability to play two-hand music. Required text: Alfred’s Basic Adult Piano Course. Level 1, available at MCC Bookstore.

CRN #11838 6 Saturdays, 3/18-4/29 (does not meet 4/15), 10 a.m.-noon
MCC Bldg. V2 V117 Fee: $150
Instructor: Ruth O’Neil is a singer/songwriter and music educator who has been performing and teaching music in the Greater Hartford area for more than 20 years. She owns the Song-a-Day Music Center in Coventry.

Basic Violin Instruction

If you want to rekindle a long-lost love for violin playing, or have always wanted to learn, then come join us for this introduction course to the violin. Students will begin with the basic principals, such as posture, tone production, right and left hand technique, intonation, and note reading. As the instruction progresses, students will develop a knowledge of rhythm, musical style, phrasing, and ensemble playing. This course will provide a well-balanced and enriching musical experience for introductory violin students, as well as more advanced students. Aspects of improvisation and performance will be included. Students will need to have a violin prior to the first class. Those who do not own a violin may email the instructor to arrange for a rental: violinone@mail.com. Recommended text: Suzuki Violin Book I.

CRN #11846 6 Fridays, 3/17-4/28 (does not meet 4/14), 7-9 p.m.
MCC Bldg. V2 V118 Fee: $75
Instructor: Bronwyn Burns earned a bachelor’s degree in music from the University of Connecticut and an artist’s diploma from the Hartt School of Music. She has performed and recorded in a variety of settings from jazz ensembles to classical symphonies, and has been teaching violin for more than 18 years. She is the music director of the violin instruction program at the East Hartford-Glastonbury Magnet School.
Introduction to African Drumming
This workshop is intended to teach basic skills for creating drum music with hand-drums from the “cone” family: Djembe, Conga and Ashiko. The instructor uses spoken references to convey rhythms that are fun and accessible. No musical experience is necessary. Tape recorders are encouraged. Optional workbook is available from the instructor for $3. Participants should have their own Djembe, Conga or Ashiko. If you don’t have access to any of these drums, please call (860) 512-2800 before registering to let us know. We will verify that the instructor can loan you an instrument before you complete your registration.

CRN #11837 1 Saturday, 5/6, 10 a.m.-1 p.m. EHCCC Room 2 Fee: $30
Instructor: Bob Bloom is a master teaching artist of the Connecticut Commission on the Arts. He has been teaching hand percussion at the Boston Center for Adult Education since 1988, and served for more than a decade as a performance member of Dr. Babatunde Olatunji’s troupe, “Drums of Passion.” His recent CD is entitled “Where’s Your Drum?”

Speak Easy: The Art of Effective Speaking
One of the scariest moments for many people comes when they have to speak in front of an audience. Can you feel the sweat building up on your palms as you read that sentence? It doesn’t have to be that way. Speaking is how we communicate. Effective public speaking is an art that can be learned through specific techniques. This course will help students speak in front of an audience with confidence and effectiveness. Through lectures and exercises, participants will learn the art of speaking without notes, how to present information in an entertaining manner, and how to keep the attention of the audience.

Confidence, Confidence, Confidence
Confidence can make the difference between success and failure. Not the only difference, perhaps, but exhibiting self-confidence is unquestionably a major asset in any situation. The good news is that confidence is a learned skill; anyone can develop it. If lack of confidence is holding you back from achieving your goals and desires, this course is for you. Through lectures, storytelling and practical exercises, students will learn to develop confidence, positive thinking, goal setting and the ability to succeed.

SUPervisory & MANAGEMENT

Progressive Discipline
In today’s legal environment, employers must be able to show that a rational, systematic approach was taken to address an employee problem. It is not good enough to “build a file on an employee.” You must demonstrate, with credible documentation, that you made a sincere effort to help the employee resolve the problem. This workshop will provide you with the steps necessary to implement and effective progressive discipline process.

**Making the Transition to Management**
Moving into a management position is an exciting step on your career path. However, if you are not properly prepared for the transition, you can run into problems. This seminar will focus on the basic skills needed to make a smooth transition. We will discuss the differences between being a supervisor and a manager, and outline some of the responsibilities of a managerial position, such as assigning and distributing work; monitoring and improving performance; and reviewing and evaluating employees. Overviews of training, leadership, communication, staffing, motivation and administrative tasks will also be included. This is a workshop for the new supervisor or the individual who wants to have a better understanding of the role of a supervisor or manager.

**Competency-Based Systems and Performance Improvements**
This one-day workshop is designed to give participants a greater understanding of the concepts associated with Competency-Based Systems and Performance Improvement, as well as tools to use in an organizational focus on competencies. Some of the questions and definitions that will be explored include: What is Human Resource Development (HRD)? How do we define competency? What do we mean by the terms Knowledge, Skills, Abilities, and Motivation? What criteria motivate job performance? How do work-constraints factor into the equation? You will compare job competence, job competency, and competency models. You will discuss organizational goals and strategic management initiatives for achieving those goals, as well as the extent to which training or education can meet needs for employee competence relative to achieving those goals. You will consider an overview of the Performance Management Process and a five-step Strategic Systems Model (SSM) for creating and maintaining competency-based employee performance improvement systems in an organizational context.

Participants will also look at a variety of examples of competencies developed by organizations and complete some assessment instruments to explore various competency levels.

Lives and Letters of the Black Mountain Poets

Black Mountain College in the 1950s was a place of innovation, where artistic energies came together to ignite a post-World War II “avant-garde reawakening.” The writers that emerged from this experimental college formed an affinity with one another and a common identity forged by the unconventional ideas of their teacher, Charles Olson. Their work as writers and publishers of nontraditional forms of poetry gave rise to new notions about poetic language, self-expression, and postmodernism, and altered the literary landscape of the 20th century. How did these poets create? How did their ideas influence one another? Join us as we read the work and personal letters of Black Mountain poets, including Olson, Robert Duncan, Edward Dorn, and Robert Creeley. Materials from the archival collections of their personal papers—housed at the Dodd Research Center, University of Connecticut—will be used. Together we will explore how these poets’ written conversations shaped their thoughts, passions, and work.

CRN #11874 1 Saturday, 4/8, 1-4 p.m. MCC Bldg. V5 V151 Fee: $25
Instructor: Melissa Watterworth received her master’s of library and information science from Simmons College in Boston. She is a member of the Society of American Archivists and the New England Archivists. She serves as the curator of Literary, Natural History, and Rare Books Collections at the Dodd Research Center, University of Connecticut.

Finding Your Muse: Discovering Your Poetic Heart

Do you sit down to write a poem or story but end up penciling your grocery list instead? Has your muse moved in next door? What muse? In this “pens-down” writing workshop, a published writer will help you focus on uncovering the imaginative spirit within. Using several creative ideas, we will produce writing to amaze. The workshop is designed to be stimulating and fun. It is open to all ages and levels of writing.

CRN #11875 2 Mondays, 4/10-4/17, 7-9 p.m. MCC Bldg. Lowe L142 Fee: $30
Instructor: Elizabeth Thomas is a published poet who designs and teaches writing programs for schools and organizations throughout the U.S. An advocate of youth in arts, she is the founder of UpWords Poetry, a company dedicated to promoting programs for young writers.

Collage for the Soul

This introductory workshop is based on the SoulCollage™ process as described in Seena B. Frost’s book, “SoulCollage.” You will learn how to create unique “collage cards” using visual metaphors and images from dreams, symbols, and archetypes. These cards are easy and enjoyable to create, but also serve as an inspiring and profound means for exploring the inner self, and can be used as a tool for healing and spiritual growth.

CRN #11885 6 Tuesdays, 3/7-4/11, 7-9 p.m. EHCCC Room 6 Fee: $90
Instructor: Gabrielle Zane holds an M.A. in clinical psychology and an M.F.A. in writing and literature from Bennington College. She is a master teaching artist and has been teaching arts for more than 15 years. She has published a chapbook entitled “Being Your Eyes.”

Healing Poetry

Poetry is probably the highest form of expression a writer can aspire to, but it can also be a natural and powerful means of self-discovery and healing. There is a poetic voice in each of us that can be tapped and fostered. Participants will learn about poetic techniques such as sound, rhythm, imagery and metaphor, and how poetic language can be employed to release pain and grief. Explore your inner self and express the unique experience of being human. This class is appropriate for those experienced in writing and analyzing poetry, or for those just beginning.

CRN #11877 6 Thursdays, 4/20-5/25, 7-9 p.m. EHCCC Room 6 Fee: $90
Instructor: Gabrielle Zane

Wallace Stevens: Order in the Sloveny Wilderness of Chaos

In this brief but intensive study of the life and poetry of Wallace Stevens, we will discuss his double life as both a vice president with the Hartford Accident Indemnity Group and as a major American poet. Our study will provide a close analysis of his poems, Sunday Morning, Final Soliloquy of the Interior Paramour, The Snow Man, Chaos in Motion and Not in Motion, and The Idea of Order at Key West, while reviewing pertinent biographical information. Stevens’s poetry has been described as obscure; to this, he responded, “The poem must resist the intelligence almost successfully.” About the seemingly paradoxical business of maintaining a profession as both a poet and an insurance man, Stevens said, “It gives a man character as a poet to have daily contact with a job.” Students considering this class should bring with them not only an interest in Stevens’s poetry, but also a penchant for analysis, as the majority of time will be spent discussing his poetry against the backdrop of his views on imagination, religion, and love. Handouts of the poems will be provided. Please bring pen and paper.

CRN #11872 2 Saturdays, 4/22-4/29, 1-4 p.m. MCC Bldg. V5 V151 Fee: $40
Instructor: John Stanizzi's poetry has been widely published in literary magazines across the country. Since 1992, he has been a high school English teacher at Bacon Academy, where he also directs the theater program. In addition, he is an adjunct instructor of English at MCC.
Stories from Your Life: Memoir Writing
This course will teach you how to tap into your memory and create interesting and meaningful stories from your experiences. You will also learn techniques to enhance your writing skills, as well as receiving feedback and coaching when you share your stories in class. Beginning and experienced writers will find value in this course that emphasizes personal stories told from the heart. Materials fee (optional): $5, payable to instructor at first class, for required three-ring notebook, paper and dividers.
CRN #11866 6 Wednesdays, 3/15-4/19, 7-9 p.m. EHCCT Room 3
Fee: $75
Instructor: Marlene Clark earned a bachelor’s degree in English from CCSU and has been a professional writer and editor since 1976. She is a former writing instructor for the Upward Bound Program at Wesleyan University, and is currently a columnist with the Hartford Courant.

Elements of Fiction Writing
This course is designed for those who want to write but feel they need more instruction in the craft of creative writing. The course includes six lessons with imaginative assignments in: finding and recognizing your material and your voice; structuring the plot, feeling the arc of the action; giving your characters depth and roundness; evoking the scene through description and detail; experimenting with points of view; and rewriting beginnings and endings. Aspiring writers are most welcome, as are those who seek inspiring assignments and who need deadlines in order to get started. We will use the Iowa Writing Workshop approach to facilitate critiques and commentary constructive to the writer’s work and goals.
CRN #11743 6 Wednesdays, 4/5-5/10, 7-9 p.m. MCC Bldg. AST D229
Fee: $145
Instructor: Jordon Pecile retired as the head of the English Department at the Coast Guard Academy. A graduate of Cornell University and the Writing Seminars of the University of Iowa, he has written for National Public Radio, television and theater. He has also published prize-winning short stories and essays in anthologies, The New York Times, Atlantic Monthly, Epoch and other magazines.

Writing the Examined Life
This workshop in creative writing will focus on writing from personal experience and turning the raw material of daily life into fiction or memoir. Various exercises in creative writing and in shaping scenes for stories will be offered as needed. Participants with works-in-progress are welcome to submit scenes for class discussion. We will use the Iowa Writing Workshop approach to facilitate critiques and commentary constructive to the writer’s work and goals. Prerequisite: This course is intended as a follow-up to Elements of Fiction Writing or for those who have had previous writing experience.
CRN #11745 6 Thursdays, 4/6-5/11, 7-9 p.m. MCC Bldg. AST D229
Fee: $145
Instructor: Jordon Pecile

Advanced Fiction Writing Workshop: The Novel and The Novella
This advanced fiction workshop is for writers who are already engaged in working with the longer form, such as the novel, novella, mystery, romance, or collection of interrelated short stories. Students should be prepared to bring their existing manuscript or work-in-progress to class. The course is ideal for those writers who have taken the instructor’s other workshops and would like to take their novel or novella to the next step.
CRN #11744 6 Tuesdays, 4/4-5/9, 7-9 p.m. MCC Bldg. AST D229
Fee: $145
Instructor: Jordon Pecile

The Hero’s Journey
Anyone who loves to write fiction will benefit from understanding the “Hero’s Journey.” Almost every great story, from King Arthur to Star Wars, consists of common elements. These elements, collectively known as the “Hero’s Journey,” are found universally in myths and fairy tales. Among these elements are recurring characters, or archetypes, such as the hero, the mentor, and the trickster. We will learn how to incorporate the structural elements of the “Hero’s Journey” into our writing and how to create memorable characters by examining these mythical archetypes. Recommended text: The Writer’s Journey, Vogler, available at your favorite bookstore.
CRN #11888 4 Fridays, 4/21-5/12, 7-9 p.m. MCC Bldg. LRC B144
Fee: $50
Instructor: Dave Goodale received his master’s of library science from Southern Connecticut State University and has worked as a children’s and reference librarian. He also reviews teen fiction and nonfiction for Voice of Youth Advocates.

Native American Art—Animals, Art & Legends
Have you ever wondered what would happen if animals could tell stories? They might tell how they appeared in the legends and art of Native Americans living in the Southwest. Listen to their stories; become the Coyote Trickster. Then create and decorate your own coiled pot using clay and other natural materials.
CRN #11480 1 Saturday, 2/11, 9 a.m.-noon
MCC Bldg. LRC B208 Fee: $35

You’ve Got a Golden Ticket
Come join Mr. Willy Wonka and the OompaLoompas on a magical tour through the famous—yet mysterious—“candy factory.” The most extraordinary chocolate maker in the world needs your help. He needs you to design a new wrapper for the Wonka Bar, invent a new candy and advertise it, as well as make—and eat—chocolate pops of all shapes and sizes. We’ll also create a fabulous new room to be added to the incredible Wonka Factory. You’ve got a “golden ticket,” so bring your sweet tooth and enjoy the adventure!

MCC Bldg. LRC B144 Fee: $35
Instructor: Dr. Arlette Cassidy
Spring Excursions in Learning

**FEBRUARY 11**
(For students in grades 3-5)

**Carving Animal Spirit Totems**
Indians used totems as a link between themselves and the natural world. Take your inspiration from the native cultures of the American Northwest. Choose a favorite animal from that region and use simple tools to carve balsa wood into a personal art object. Color will bring it alive and sealant will preserve your totem.

CRN #11491 | Saturday, 2/11, 9 a.m.-noon
MCC Bldg, LOWE L141 Fee: $35
Instructor: Ayanna Spears

**Make Your Own Computer Game I**
Use shareware to create a computer game that you can show and play with friends and family. Learn how to make different types of games where you select the graphics and design your own game layout. You will be able to take your games home to continue development on your own. No programming or gaming experience required.

CRN #11505 | Saturday, 2/11, 9 a.m.-noon
MCC Bldg, LRC B222 Fee: $35
Instructor: Catherine Seaver

**Cook Your Way Across the U.S.A.**
If cooking and eating your way across the country sounds like fun, this class is for you. Begin your mouthwatering adventure in New England, travel west across the continent, and end in the Hawaiian Islands! En route, you’ll learn about the culinary history of various states. Prepare and sample blueberry cornbread from Maine; soft pretzels from the city of Philadelphia; cheese quesadillas with vegetables from Arizona; baked, sliced potatoes from Idaho, and Aloha Bobs from Hawaii. Materials fee: $7, payable to instructor at beginning of class.

CRN #11412 | Saturday, 2/11, 9 a.m.-noon
MCC Bldg. LOWE L293 (South Kitchen), meet in Cheney Dining Room Fee: $35
Instructor: Julia Porter

**Mathematical Puzzlers (Grades 4-7)**
Use logic and reasoning to work your way through mathematically-puzzling situations. The first half of the class will draw upon the left side of the brain using logic to solve challenging word problems. The second half of the session will ask the right side of the brain to use spatial reasoning as you construct unit origami shapes.

CRN #11498 | Saturday, 2/11, 9 a.m.-noon
MCC Bldg, LRC B209 Fee: $35
Instructor: Thomas Ebersold

**This Class is for Dumbbells! (Grades 4-6)**
Enhance your level of fitness by using medicine balls, resist-a-bands, parachutes, dumbbells, and mat activities. “Go for the gold” when you play “No Sweat.” Create a “buddy challenge” to prove that you’re smarter than your dumbbells! Sneakers, water bottle, healthy snack, and light-weight gym clothes are required.

CRN #11497 | Saturday, 2/11, 12:30-3:30 p.m.
MCC Bldg, LOWE L155 Fee: $35
Instructor: Joanne Britton

**FEBRUARY 18**
(For students in grades K-2)

**Mystical **
**Power Creatures**
Explore the magical worlds of dragons and mythological creatures. Create your own “being” and give it special qualities and powers. Form the base of your creation with a soft wire armature. Cover it with a plaster cast, and then paint it with colors to enhance its powers. Enjoy your mystical friend.

CRN #11483 | Saturday, 2/18, 9 a.m.-noon
LRC B213 Fee: $35
Instructor: Ayanna Spears

**Stop Thief—The Case of the Borrowed Bear**
Use your best science and reasoning skills to solve the mystery of who stole Mr. Bear. You will investigate a crime scene and perform forensic science tests to solve this mystery. Don’t forget your magnifying glass.

CRN #11484 | Saturday, 2/18, 9 a.m.-noon

Spring Excursions in Learning

Use Your Senses (Grades K-1)
Use your senses to see, taste, touch, smell and hear. Listen to taped sounds to identify common noises, and then create your own mystery sounds. Feel different textures and identify objects in a paper bag with only your sense of touch. Create your own mystery bag object. Smell different scents, and then create your own scent board. Taste different things—lemon, sugar, salt—then figure out what part of your tongue is doing the tasting. Take home a tasty snack. End our workshop with a fun game of charades, using only your sense of sight!

Early American Quilt-Making—Wrap around Story Boards (Grades 5-7)
Before the Civil War, slaves would design quilts from the scraps of other sewing projects and even create secret maps tracing the routes of the Underground Railroad. Their African languages and religions were banned, but would appear in carefully constructed appliqués. Wrap up a story of your own as you construct a quilt made from material scraps glued together and ready to be displayed on a wall or as a “throw.”

**Registration Information**

**Register Early**
To ensure that you receive materials lists (describing what you should bring to class) in a timely manner, register at least ten (10) days before the first scheduled class meeting. MCC cannot guarantee that materials (what instructors bring for your use) will be available for late registrants. Enrollment in classes is limited and will be accepted on a first-come, first-served basis. Classes may fill quickly; early registration ensures you a seat and also decreases the likelihood that a course will be canceled.

**Confirmations**
No written confirmations are mailed. Registrants will be contacted by MCC only if a course cancels or if classrooms, meeting times or dates change.

**Course Locations**
Courses are held in classrooms at MCC and at the East Hartford Community Cultural Center (EHCCC), unless otherwise indicated in the course descriptions. Please see maps on page 2 and 41 for directions to facilities and for MCC room locations.

**Free Parking**
Parking is free at MCC. You may park without a permit in Lots A, B or C. A permit is required to park in staff or handicapped spaces. For parking lot locations, see campus map on page 41. Parking is also free at EHCCC.

**Postponements & Make-Ups**
Classes postponed by instructor’s request or extreme weather conditions will be made up, whenever possible. Please call the College’s main line, (860) 512-3000, or listen to WTIC, WDRC, WHCN, WPOP, WRCH or WCCC for cancellations due to weather conditions. You may not make up absences by attending classes other than your own. Closings due to weather are also listed on the College webpage: www.mcc.commnet.edu

**Cancellations**
MCC reserves the right to cancel, postpone and substitute instructors as needed due to unforeseen circumstances. If MCC cancels a course, registrants may transfer their fees to another course for the same semester or receive a full refund. If a course is canceled, registrants will be notified by phone or mail.
