Student Learning Objectives

Student Name: ___________________  Subject Specialty: ____________
Site Name: ____________________  Supervisor: ________________

Learning Objectives must reflect job-related responsibilities as agreed upon by the Student, employer, and the College. Objectives should help the student to:

a. Demonstrate increasing levels of responsibilities, technical skill and knowledge of discipline-related professional practices.

b. Recognize and articulate learning which is different from, and that goes beyond, classroom learning.

c. Grow in their ability to identify, acquire and apply the professional and interpersonal skills needed to be successful in the workplace.

1. What skills and abilities do you have that you want to use and/or practice during the work experience? Please include skills learned in classes and professional skills such as communication, organizational skills, etc.

OVER
2. What specific skills do you hope to acquire and what duties or responsibilities will help you achieve your objectives in this area?

3. How do you want your work experience to influence or impact your future career plans? What personal rewards and benefits do you hope to receive as a result of this work experience?
