

# MCC Powerpoint Backgrounds

Below are thumbnail previews of the MCC slideshow background. Look in the folder of Powerpoint background images to find your desired background color using this chart.

## Using the MCC Slide Backgrounds

**How To Use:** To use a single background image throughout a presentation, insert the .png file found in the Powerpoint Backgrounds folder to your presentation’s “Master Slide”. You can also add them on a per-slide basis. Refer to Microsoft’s Powerpoint “Help” section for more information.

### Standard Proportions

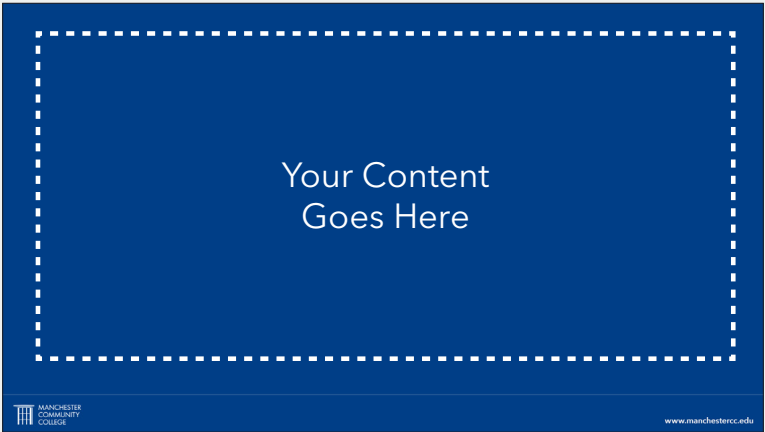

If your presentation slide size is Standard (4:3)

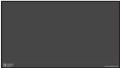

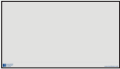

(dashed lines appear here only for reference.)

### Widescreen Proportions

If your presentation slide size is Widescreen (16:9)
